Tensorflow

PROJECTS

ANDROID APPLICATION: COGNITIVE KIDZ HOME TRAINING APP (SPONSERED)

Project Overview: Inspired by SIH 2023, this app aids cognitively disabled children through a computerized home training program with live therapy sessions, cognitive activities, ML based reward system and AI-driven progress reports, supported by a chatbot for parental guidance.

BrunchSmoothieRecipeBot: An AI Agent ChatBot
Project Overview The AI Agent ChatBot for Brunch and Smoothie Recipes uses NLP to understand user queries and offers personalized recipe recommendations with step-by-step instructions. It integrates a comprehensive recipe database and employs machine learning for improved suggestions.

KEY SKILLS

Presentation skills	Leadership
Communication skills	Team work
Fast learner	Active listener
